## AUTHOR GUIDELINES

---

Information below is only valid for both the IntechOpen's MS Word template and the LaTeX template. Note that these numbers are approximations only. Please treat them as such.

CHAPTER LENGTH	
Minimum	Maximum
10 pages	20 pages
33,000 characters (with spaces)	66,000 characters (with spaces)
4,500 – 4,750 words	9,000 – 9,500 words

The final page number can be calculated only when your unedited manuscript has gone through the technical editing process. Technical editing ensures that the manuscript is formatted according to professional academic publishing standards. The total page count will be communicated to you by your Author Service Manager.

**THE NUMBER OF PAGES INCLUDES THE ENTIRETY OF THE CONTENT: THE MAIN TEXT (WITH ABSTRACT, KEYWORDS, AFFILIATIONS, REFERENCES) AND ALL ADDITIONAL MATERIAL (FIGURES, TABLES, DIAGRAMS, ETC.)**

IntechOpen can accept shorter or longer manuscripts, provided that the scientific content is of high value.

The Open Access Publishing Fee (OAPF) for your chapter covers the production costs up to 20-page long chapters. For chapters longer than 20 pages, **ADDITIONAL PAGE CHARGES** will be applied on a page level basis.

**THE ADDITIONAL PAGE CHARGE IS 40GBP + VAT (IF APPLICABLE)  
PER EACH ADDITIONAL PAGE**

The MS Word template can be opened in any text processor of any Office suite (MS Office, LibreOffice, OpenOffice, etc). All the required page formatting options have been preset. Note: the template will work best with MS Office.

A TeX distribution will have to be installed on your computer in order to use the LaTeX template. When sending your chapter in LaTeX, the source file(s) have to be accompanied by the compiled PDF and media files.

Both templates contain all the necessary chapter preparation guidelines inside them. Simply follow the instructions and insert your text where prompted.
