
The Formation of Ethylene Glycol from Methanol-Formaldehyde Solutions

Michael M. Silaev

Chemistry Faculty, Moscow State University, Moscow, Russia

Retraction to: Silaev MM. The Formation of Ethylene Glycol from Methanol-Formaldehyde Solutions. London: IntechOpen; 2020. DOI: 10.5772/intechopen.92186.

The publisher is retracting and removing [1] because [1] is double publication.

The publisher and the author regret any inconvenience this might have caused to the readership.
