Work with IntechOpen & take your research further
IntechOpen is one of the pioneers of Open Access book publishing. We published our first Open Access book, Cutting Edge Robotics, in 2005.

Since 2005 we have grown consistently, surpassing other publishers and becoming the world’s leading publisher of Open Access books.
Highlighted books

OPEN ACCESS PUBLISHING MODEL

- More exposure for your work
- Researchers in developing countries can see your work
- Practitioners can apply your findings
- Higher citation rates
- The public can access your findings
- Authors retain exclusive copyright to their work under CC license
- Taxpayers get value for money
- Compliant with grant rules
- Your research can influence policy

Academic Editor - The Role

What it Means to be the Academic Editor

The quality demonstrated in the more than 5,100 books published by IntechOpen would not be possible without the input of the leading researchers who take on the role of book editors.

Each one of our editors is a specialist in their given field, and their engagement makes it possible to reach the high standards required by the scientific community.
Academic Editor Responsibilities

• Editors define the scope and topic of a book and its overall concept, table of contents, and book chapters. They are responsible for the scientific quality of a book they edit. Editors review the full chapters by screening them for plagiarism, evaluating their scientific merit, and ultimately deciding whether they are suitable for inclusion in the book or not.

• During the review process, Editors suggest rounds of revisions. Editors have the absolute possibility of accepting, requesting major or minor revisions, or rejecting the full chapter submissions.

• Editors work on reviewing and providing review comments for all submitted manuscripts, the writing of an introductory chapter, preface, and text to be displayed online and on the back cover of the books.

• The book format offers editors an opportunity to work with international authors active in diverse fields on a single project. This kind of collaborative effort allows for an expansion of scientific circles. Our authors and editors come from top universities, are highly cited, and include three Nobel Laureates.
Editor benefits

- 2 free hard copies of your title
- Complimentary eBook PDF of your title
- Opportunity to publish a chapter in your title for free
- Author acquisitions for your title managed by IntechOpen
- 'Invite an author' and they will receive 500 GDP discount off the Open Access Publishing Fee
- Opportunities to collaborate with Co-Editors and grow your network
- Dedicated Author Service Manager as one point of contact throughout the process
- Complimentary English Language copyediting and typeset services for authors and editors
- 'Online First': reviewed and edited chapters published individually, before the entire book is published, allowing them to be searchable and citable without delay
- Indexing - regular submission of books to Web of Science Core Collection (BKCI and BIOSIS Previews), Google Scholar, WorldCat, BASE, CNKI Scholar and EBSCO for evaluation
- Post publication metrics reports (including downloads, citations, online mentions, readers by geographical region)
- Special Editor’s Discount on any printed IntechOpen title
Publication process

1. Registrations of authors and chapter proposal submission.

2. Chapter proposal review deadline = 7 days from submission (for each individual chapter proposal)
   - Chapter proposal review options:
     - Accept
     - Accept with comments
     - Out of Scope

3. Full chapter review deadline = 7 days from submission (for each individual full chapter)
   - Full chapter review options:
     - Accept
     - Minor review
       - 3 days to submit revised full chapter (authors);
       - no second review (editor)
     - Major review
       - 5 days to submit revised full chapter (authors);
       - second review deadline (editor) = 7 days from major revised full chapter submission (for each individual major revised full chapter submission)
     - Reject

   Chapters published individually 'Online First', immediately after review and before the entire book is ready for publication.

4. Final tasks (project & table of contents) and materials (preface, back cover)

5. The project is published online weeks after the editor provided the final materials.

6. Books are submitted to relevant abstracting and indexing services including Web of Science - Book Citation Index, Crossref, Google Scholar, WorldCat, BASE, EBSCO A-to-Z, Open AIRE, CNKI Scholar, RePEc, ExLibris SFX.
Information on downloads, reach, citations and online mentions is available on the IntechOpen platform, supported by custom-built tools as well as the most advanced tools on the market (Altmetric & Dimensions).

Reports are also available on the Author and Editor Panels and delivered via email once a publication has reached specific download milestones.
Feedback

“The response concerning the free download of book chapters is the best motivation for me (the global interest in our open books). Researchers and students from all over the world connecting with our work is the best fulfillment.”
Waldemar A. Monteiro, Materials Science and Technology Center, Nuclear and Energetic Researches Institute São Paulo, Brazil

“InTechOpen has provided me with the opportunity to work with international scientists with whom I would not have otherwise had the chance to work with.”
Dr. Parveen Saini, Conjugated Polymer and Graphene Technology Lab, Polymeric and So Materials Section, Materials Physics and Engineering Division, CSIR-National Physical Laboratory, India

“I am really very enthusiastic since I have authored chapters in different scientific books before, but I have never been involved in editing an Open Access book like this one.”
Dr. Ioannis Kypraios, Oxford University, APEM Computing Labs, United Kingdom

“No Open Access, no development. IntechOpen is good news for the scientists in developing countries.”
Prof. Guangming Xie, Peking University, China

“It was a pleasure to work with you. I have never experienced such a friendly and helpful environment.”
Dr. Alexander Panov, Kennesaw State University, United States of America

“I was quite impressed by the high quality of IntechOpen publications.”
Prof. Karsten Berns, University of Kaiserslautern, Germany
